Introduction...

For hypnotherapy to be effective, hypnosis itself must be effective. This is the focus of The Australian Academy of Hypnosis. We don't focus on NLP or so called Modern or Conversational Hypnosis. We teach or students how to induce real hypnosis in a practical sense. The Australian Academy of Hypnosis in not an RTO (Recognised Training Organisation) and we do not ever intend to ever be.

It is not a requirement for any training organization to be an RTO and if they are it requires that many “Non Hypnosis” components are in their curriculum and therefore a significant increase in the fees. We would rather focus on what we've been doing successfully for 20+ years – Ensuring that our students become competent clinical hypnotists. Thank you for your interest in hypnosis training at The Australian Academy of Hypnosis.

Many disciplines are used for self improvement and change, but none have the power and completeness of correctly induced Hypnosis. The Australian Academy of Hypnosis teaches both beginners and advanced therapists from all walks of life how to utilise this simple tool for effective therapy. We de-mystify the reality of Hypnotism, Mesmerism and Hypnotic Fascination for the purposes of therapy.
We are Australia’s Longest Established Hypnosis Training Institution

**Styles and Types of Hypnosis**

Rick Collingwood established The Australian Academy of Hypnosis™ in 1996 after he recognised that many Hypnosis Training Institutions mostly teach theory or hypnosis hybrids such as NLP or so called Conversational Hypnosis, or they have a significantly academic approach within their training curriculum; offering either none, or very little, practical training in actual trance inductions. During the past twenty years The Australian Academy of Hypnosis™ has trained more than 2500 students nationally and internationally; many of them are very successful professional hypnotherapists. Rick first learned Ericksonian Hypnosis in 1992 and has practised as a full time professional hypnotist ever since. He has travelled the world studying and researching Traditional Hypnosis, Rapid Inductions and Mesmerism. Rick has passed on these various techniques and skills to his fellow Academy trainers. What the academy brings to the training arena are real hypnosis techniques that work on a physical, mental, emotional and spiritual level and it is these techniques that have made the academy one of the best in the world. You will be taught how to apply these techniques to your own life and the lives of your clients. The training is hand-on and theory is learned from the extensive online training & resource center & emualons provided upon registration. During the training you will be inducing trance under supervision from the first day and we will ensure that you get it right. After that, mastering what we teach to you will be in direct proportion to your passion for hypnosis and the practice you put into what you learn. After the completion of your initial training you will have ample opportunity for more advanced training, regular monthly and speciality training, and open email access to the academy and free lifetime access to the online training and resource centre at www.theaustralianacademypoohypnosis.com

**Some of the more common styles of hypnosis or hypnotherapy are…**

**Ericksonian Hypnosis:** This is a therapeutic model of hypnosis created by the American Psychiatrist Milton Erickson. Ericksonian Hypnosis is most effectively utilised by a skilled and experienced Psycho Therapist. Ericksonian hypnosis is commonly used during therapy, but does not usually require or effect deep trance states. After a relaxed state has been achieved by the subject, direct suggestion is replaced by ambiguity and a lot of metaphor is often used during the therapy sessions; which will usually be about 15 to 20 in number.

**NLP or Neuro Linguistic Programming:** Regardless of what persistent slick marketing efforts may try to have you believe; NLP IS NOT HYPNOSIS. It is supposedly the study of excellence and it does have some interesting and no doubt effective strategies. NLP also offers a lot of insight into human behaviour and the mind. However, because an NLP training institute may offer NLP training under the guise of it being hypnosis that is frequently claimed by its proponents. This is amply demonstrated by the fact that after more than a decade of clinical trials and studies at respectable academic institutions; no evidence could be found to back up the many claims made about the power and effectiveness of NLP. If you are learning NLP, you are not learning hypnosis.

**Traditional Hypnosis:** Traditional hypnosis is direct hypnosis. It is genuine hypnosis, the type of hypnosis that despite academic opinion can make many individuals do things that are against their moral patterning or usual personality. Traditional hypnosis can be blended with Mesmerism, NLP and Ericksonian Hypnosis to create a very powerful therapeutic modality that Rick calls “Hypnosis Field Therapy™”

**Mesmerism:** Mesmerism is derived from the presumed father of hypnosis. The German doctor Franz Anton Mesmer (1734 1815) however it is probably more correctly described as energetic hypnosis as very few words are used to induce a mesmeric state which is affected by what is known as stroking or magnetic passes. The resulting trance is very different than hypnosis induced with verbal relaxations and commands and it is often more therapeutic when applied by a well trained and experienced practitioner.

Our intensive training will teach you genuine traditional hypnosis and all of its uses. You won’t be bogged down with theory you will learn techniques and how to do genuine and effective hypnosis from one of the world’s foremost hypnosis trainers. You will learn all of the effective means of inducing the hypnotic trance state, including rapid and instant inductions, Mesmerism and how to apply it, and also the almost forgotten art of “Hypnotic Fascination” and how to correctly utilise hypnosis for therapeutic purposes and self-improvement. You will experience hypnosis demonstrations’ and partake in lots of supervised hypnosis induction practice. Our training is suitable for any adult who wants to become a clinical hypnotist, for hypnotherapy and other health practitioners who want to learn deep trance induction skills, and those seeking self-improvement and a better understanding of the human mind and human behaviour. The curriculum is taught in an easy to learn practical format, ensuring that all students become effective hypnotists.

Current Hypnosis Legislation

The practice of Hypnosis and Hypnotherapy was deregulated in every state and territory of Australia by the 5th December 2005.
It is not a requirement to be ‘licensed’ to practise hypnotherapy anywhere in Australia.
The various hypnosis Associations and the Hypnotherapy Council of Australia (HCA) act as self-appointed regulating bodies.

Association Information

The Australian Academy of Hypnosis training is approved by the Hypnothearpy Council of Australia (HCA). The HCA is the recognised governing body for Hypnosis Institutions, Schools and Associations.
Most significant hypnosis Associations recognise The Australian Academy of Hypnosis’ ‘Certificate of Clinical Hypnosis’ as a qualification for membership. Some associations may require insurance coverage, police clearance, and a senior first aid certificate. Please contact them directly for details.
The academy is not directly affiliated with any associations. However, we do recommend association membership, especially if you are planning to use hypnotherapy professionally.
Some of the Hypnosis Associations you can apply to for membership are:

- TAHA The Australian Hypnosis Alliance
- PHA Professional Hypnotherapists of Australia
- ASCH Australian Society of Clinical Hypnotists
- AHA Australian Hypnotherapists Association
- AHA American Hypnotists Association
- AGH American Guild of Hypnotists

Our Diploma of Clinical Hypnosis is also recognised by the NHS in the United Kingdom.

The refund policy for all hypnosis trainings within Australia and any other country is as follows. After acceptance into the academy training and payment of fees there are absolutely no refunds. Students may defer any training to any equivalent future training for up to three years.
If the academy cancels a training in its entirety a full refund will be issued within 21 days of any such cancellation. The academy will also NOT BE RESPONSIBLE to refund any travel fares or accommodation payments to and for students who may be travelling to attend any trainings and it is recommended that if booking airfares or accommodation this is done on a changeable or refundable basis.
These conditions are absolute. All students acknowledge and agree that upon submitting an application form and being accepted for any training conducted at or by The Australian Academy of Hypnosis they have a full understanding of, and agreement with, these terms and conditions.

Some Testimonials…from previous students

I would like to thank the Mind Motivations team for their expertise and dedicated efforts in the outstanding methods of teaching hypnosis; no other hypnosis training establishment that I know of combines 90% demonstration and practical with theory the way The Australian Academy of Hypnosis teaches. The old saying of, “a picture paints a thousand words”, has never been truer when learning traditional hypnosis through the AAH. – Ralph N.

I found the course to be concise and informative. Learning hypnosis from some of the best in the field is such a privilege. We got a lot of hands on practise and a great chance to learn from the experience of some great hypnotherapists. Thankyou.
– Danielle – Acupunturist.

A scientific and spiritual journey offering clarity and peace of mind and also the ability to now give the same to others.
– Kim Davis.

Comprehensive, practical, amazing! The most eye-opening course I have ever done.

I found this course to be invaluable. Information, techniques and the practical application of hypnosis were very well constructed, well explained and demonstrated. The self assessments were a bit daunting, but very effective as a doubling up of our new knowledge. I would advice anyone who wishes to help people therapeutically to do this course. Thank you very much.
– Patricia Barker – Counsellor.

Excellent course. Great to know you could achieve such effective results in such a short time.
– Jan Duckett – Healer, Counsellor.

When I first experienced your training style I was perturbed by the informal discussion, demonstration, and practice format that you use. I was used to a more formal structure in class. Instead of acting on my urge to object, I just thought I’d immerse myself and absorb as much as I could about what you know and what you do. It worked. I finally get hypnosis and I’m finally a real hypnotist! I’m now much more confident. I used the Eye Lock last night on an old client and it worked just as you taught me it would. It’s a breakthrough for client and therapist. I have found that people promise a lot in their trainings but when you actually get down to tin tacks you don’t hear the full truth. Very few trainers will commit to other people’s real success as you have done. You delivered. Thank you for being genuine.
– Mike Welsh.

I recently completed a gov’t accredited Cert IV, and while the theory side of things was great, the practical side was not, and I walked away lacking the ability to hypnotise. I felt hamstrung! Then I met Rick Collingwood, I did a course with him at The Australian Academy of Hypnosis, saw and experienced real hypnosis first hand, and walked away confident I could do it too.

Within a week I had hypnotised my family. Within 2 weeks I was hypnotising friends. Weeks later, my stepdad is still responding to the direct suggestions I gave him in what was my first attempt at real hypnosis. It works! I’m looking forward to further study with him, and if you really want to learn hypnosis, I suggest you learn it from Rick.
– Cahn Forrest.

I just wanted to say the DVDs and the training manuals are excellent - I learn’t more watching just one of your training DVDs than I did on my 12 month diploma course. A bit of a worry!! I’m really looking forward to the 5 day Sydney course. I just wanted to ask also – how many people on the actual 5 day course. I have never been hypnotised although I have done several hypno workshops as well as the one year course, so I was wondering what the chances of actually getting work with you would be. It is something I would dearly like to experience especially as I am using it with clients. Figure – if you don’t ask – you will never know!!! Am very passionate about hypnotherapy and helping others … and becoming the best practitioner possible.”
– Regards Neil.
